

The Rushes – Song Lyrics

There's a Price to Pay

*Parents give me shout
The hard times have begun
Stuff it let me out
Widnae stop me from havin fun
Met some mates got some pints
Was getting out of my face
Took some pills to get a buzz
I went right off my nut
Started to break things that I found
Smashed a few windows that were around
Then I realised what I had done
I decided I had better run
Running faster down the street
The police were on my case
They made a swipe for my feet
I fell flat on my face*

*Get a buzz and fly away
Smoke weed today
Parents shouting and screaming
Not listening to what I say
Escape from all the assholes
I have to find a way
But don't forget sometimes
There's a price to pay*

*Huckled and charged I was gutted
They put me in a cell
A hairy blanket itched my arm
This was a living hell
I lay awake in the darkness
Thinking about it all
But I still couldn't sleep
Wrote a message on the wall
Morning came it was no better
With the food they made me eat
Polis came and goes "Time to leave"
Come on lad, get on your feet
Mum and Dad were waiting
I was shaking in my shoes
Right back where I started
That's the price, I guess I lose*

*Get a buzz and fly away
Smoke weed today
Parents shouting and screaming
Not listening to what I say
Escape from all the assholes
I have to find a way
But don't forget sometimes
There's a price to pay*

*Hangovers and come down
Come down with a bang
Tube stuck down my throat
Stomach getting pumped
The buzz soon doesn't matter*

*Get a buzz and fly away
Smoke weed today
Parents shouting and screaming
Not listening to what I say
Escape from all the assholes
I have to find a way
But don't forget sometimes
There's a price to pay*
